

SUNSMART POLICY STATEMENT

Rationale

Queensland has the highest rate of skin cancer in the world. Of all new cancers diagnosed in Australia each year, 80 percent are skin cancers. Given sporting events often take place during the peak ultraviolet radiation (UVR) time throughout the day, sporting organisations play a major role in both minimising UVR exposure and providing an environment where policies and procedures can positively influence long-term SunSmart behaviour.

Skin damage, including skin cancer, is the result of cumulative exposure to the sun. Research shows that severe sunburn contributes to skin cancer and other forms of skin damage such as sunspots, blemishes and premature ageing. Most skin damage and skin cancer is therefore preventable.

With this in mind Diving Queensland realises the need to protect staff, participants, organisers, officials, coaches or spectators (all grouped under the title of “members”) from the sun and educate them about SunSmart behaviour, thus reducing the risk of skin damage from overexposure to the sun.

Aims

The policy aims to:

- provide ongoing education that promotes personal responsibility for skin cancer prevention and early detection.
- provide sporting environments that support SunSmart practices.
- create an awareness of the need to reschedule work commitments and outdoor activities to support SunSmart practices.

Procedures

The implementation of this policy will be conducted throughout the year.

The purpose of the SunSmart policy is to ensure that all members attending our events are protected from the harmful effects of the sun throughout the year.

Our Commitment

Diving Queensland will:

- Provide SPF 30+ or higher, broad-spectrum, water-resistant sunscreen for members at outdoor Diving Queensland events.
- Follow The Cancer Council Queensland guidelines for SunSmart clothing when choosing, designing or redesigning uniforms.
- Where possible, hold training sessions and competitions at venues that provide adequate shade for members.
- Provide suitable shade structures for events where existing shade is not adequate for members.
- Promote SunSmart behaviour through social media and printed materials.

- Provide ongoing education about skin cancer prevention and early detection.
- Encourage all coaches, trainers and adult members of Diving Queensland to act as positive role models for younger members in all aspects of SunSmart behaviour by:
 - wearing appropriate hats and clothing for all outdoor activities;
 - using SPF 30+ or higher broad-spectrum, water-resistant sunscreen;
 - seeking shade whenever possible; and
 - wearing sunglasses that meet the Australian Standard (AS/NZS 1067:2003)
- Regularly reinforce the SunSmart policy through emails, social media and development activities.
- Review the SunSmart policy annually.

Our Expectations

Members will:

- Take responsibility for their own health and safety by being SunSmart
- Comply with SunSmart rules and guidelines by wearing suitable hats, clothing, sunscreen and sunglasses.
- Apply SPF 30+ broad-spectrum, water resistant sunscreen 20 minutes before going outdoors.
- Use shaded or covered areas, where possible, when spectating and during breaks.
- Help to design and regularly update the SunSmart policy.
- Act as positive role models for other members in all aspects of SunSmart behaviour.
